CURRAMBINE PRIMARY SCHOOL

WET WEATHER POLICY

GENERAL GUIDELINES

- When the weather is too wet, cold or windy, the following procedures will apply:
  1. Implementation of policy to be notified by administration member.
  2. All staff and students to remain indoors (or undercover ie to canteen, toilets etc straight there and back).
  3. Normal playground duty is suspended. Teachers, in team will collaborate to ensure adequate supervision of all students in their block.
  4. Resolution room will be supervised as normal by a member of admin.
  5. Home classes to be supervised by teachers and support staff (using a buddy system)
  6. Suspension of the policy procedures will only occur when advised by admin.
  7. Staff to ensure all students supervised at all times.

These are designed to prevent students returning to class wet and/or cold and to minimise the risk of injury at these times.

- Students will be restricted to their home rooms only whilst wet weather policy is in force. (ie students are not to visit other rooms)

- Wet weather policy may be implemented at any time during inclement weather, and always during wet weather. No sport equipment is to be taken out. Teachers will be notified of this by a member of the administration team.

Specialists

- When implemented, specialist teachers need to join classes making supervision teams as follows:
  Team 1 Staff
  Team 2 Staff and Library teacher
  Team 3 Staff and P.E. teacher and Language teacher.

- Each team will be required to design a roster system so that all staff have a break during wet weather policy enforcement. When the procedure is suspended during a break, staff must return to normal duty rosters.

- Please ensure that all students are reminded to be careful and sensible if allowed out as the grounds will be wet.

- Students returning to class wet are to be sent to administration immediately.

“Play in a safe and sensible manner.”
